

Vineet Tiwari

Hyderabad, India 500019 • +91 8982210201 • vineetjeccs@gmail.com

EXPERIENCE

Senior Backend Engineer, 01/2026 - Current

Backbase - Hyderabad

- Built and integrated **Camunda BPMN** workflows using Java Delegate handlers in Spring Boot, enabling scalable orchestration of backend microservices for banking use cases.
- Developed handler-based service logic and actively participated in code reviews, ensuring reliable execution, clean code practices, and maintainable implementations

Software Engineer, 12/2023 - 01/2026

Infor - Hyderabad

- Contributed to STS platform for scalable authentication and token services in Infor CloudSuite.
- Implemented SSO using **OAuth2, SAML, and OIDC** with multi-tenant tokens, session management, and SLO integration

Associate Software Engineer, 07/2021 - 11/2023

Innominds Software Pvt Ltd - Hyderabad, India

- Standardized ML data workflows with automated validation and cleaning, reducing errors by **25%**.
- Developed **15+ REST APIs** using Java & Spring Boot, improving performance by **~40%** and supporting **200+** daily requests with **99.9%** uptime.

Software Engineer, 08/2017 - 01/2019

MyKingdom - Bangalore, India

- Collaborated with development and product teams, resolving blockers and improving release cycle efficiency by **~10%**.
- Built debugging tools and inventory solutions, delivering **15+** features that improved application stability and issue resolution

PROJECTS

Trade Allocation Microservices

- Designed microservices architecture using Spring Boot, Kafka, Redis. Implemented idempotency, rate limiting, and distributed locking.

GitHub: <https://github.com/vineet21tiwari/trade-allocation-microservices>

DevMind AI – Enterprise RAG Knowledge Assistant

- Built AI-powered platform using RAG, embeddings, and LLM - Implemented document ingestion, vector search, and Q&A system.

- Used Redis caching and Kafka for async processing

GitHub: <https://github.com/vineet21tiwari/developer-ai-assistant>

Automation Testing Framework

- Built Playwright-based UI + API testing framework

GitHub: <https://github.com/vineet21tiwari/playwright-e2eframework>

SKILLS

- **Programming Languages:** Java, Python, JavaScript.
- **Backend :** Spring Boot, Microservices Architecture, REST APIs, Spring Data JPA, Spring Security, Concurrency (Multithreading, Executors), Design Patterns.
- **Distributed Systems:** Kafka, Redis, Event-Driven Architecture, API Gateway, Rate Limiting, Idempotency, Caching Strategies.
- **AI / GenAI:** RAG (Retrieval Augmented Generation), LLM Integration, Embeddings, Vector Databases, Prompt Engineering.
- **Frontend:** React, HTML, CSS, JavaScript, REST API Integration.
- **Cloud & DevOps:** AWS (EC2, S3, Lambda, Kinesis, CloudWatch), Docker, Kubernetes, OpenShift, ArgoCD, Jenkins, GitHub Actions, CI/CD.
- **Databases:** PostgreSQL, MySQL, Redis, query optimization, Indexing
- **Security :** OAuth 2.0, JWT, SAML, OIDC, API Security.
- **Testing :** JUnit, Mockito, Pytest, Playwright, Unit & Integration Testing.
- **Architecture and problem solving:** Data structures and algorithms, Scalable Systems, Distributed Architecture, High Availability.

EDUCATION AND TRAINING

M.Tech, 06/2021

Birla Institute of Technology And Science, Pilani - CGPA : 8.28

B.E : Computer Science and Engineering, 06/2017

Jabalpur Engineering College (JEC) - CGPA : 7

Higher Secondary

Central Academy School - Percentage : 80.2 %
